

C.G.S(Thailand) promotes eco-friendly shop made by Re-board in Thailand

C.G.S.(Thailand) has recently supported ECOSHOP Common, owned by Khun Top Pipat, a local famous eco designer to kick off the first eco-friendly shop in Thailand which is entirely built by Re-board, the environment-friendly materials made by recycled paper from Sweden. With a unique engineered fluted core, Re-board is incredibly lightweight but exceptionally strong. With these strong attributes, the triangle area of 20 sq.m where ECOSHOP is located, can be easily built within few hours with empty hands of few man power. All furniture, product shelves and in-store displays are made by Re-board which are well functional designed. Today, Re-board is the newest innovation of MICE industry mainly for green exhibition. It has brought to 3R benefits. That is, it can be reusable, recyclable and reducible.

The ECOSHOP Common or known as the eco-friendly design center is located on the first floor of Bangkok Art and Culture, Pathumwan, Bangkok. All kind of eco-friendly products with unique design are sold here ie. stationery, bags, gift items, bike stuff and etc.

C.G.S(Thailand) under the leader of Khun Noppadol Krairiksh, managing director, is a sole distributor of Re-board from Sweden in Thailand and has provided a turn-key service of green exhibition, display stands, booths, product shelves and POP materials. Now, we have more than 100 customers in various industries and have also actively

participated in many national and international trade show and exhibitions as a key exhibitor.
