

FROM ONE
LIBRARY TO A
SUSTAINABLE
FUTURE

“ BITEC
SUSTAINABLE
LIBRARY ”

BITEC EMPOWERS LEARNING FOR CHILDREN AND COMMUNITIES

BITEC is committed to building a sustainable society by transforming over 51 tons of waste paper from events into tables, chairs, and bookshelves for the "**BITEC Sustainable Library**", which has been donated to Wat Bang Kachao Klang School in Samut Prakan. 🏫

This initiative is a result of the collaboration between **BITEC**, **SCGP** and our valued event organizers, who share our dedication to sustainable events. The impact goes beyond just reducing waste 🌍—it extends to upcycling, creating learning spaces 📖 where children and communities can grow with a sustainability mindset. ♻️

One library can change countless lives! 🚀 **BITEC** is committed to expanding this project to more schools, amplifying its impact 🌱 because we believe that "learning never ends."
