

Press Release The Berkeley Hotel Pratunam

The Berkeley Hotel Pratunam Strengthens Sustainable MICE Offerings in Bangkok

Located in the heart of Bangkok, The Berkeley Hotel Pratunam continues to position itself as a leading venue for Meetings, Incentives, Conferences, and Exhibitions (MICE), offering organisers a well-balanced combination of scale, flexibility, service excellence, and sustainability.

The hotel features over 3,400 square metres of versatile event space, suitable for a wide range of functions—from international conferences to gala dinners and incentive programmes. The highlight is the Berkeley Ballroom, one of the largest city-centre ballrooms in Bangkok, with a capacity of up to 2,000 guests and adaptable layouts to support diverse event formats.

Sustainability is increasingly embedded in The Berkeley’s MICE operations, with initiatives designed to support responsible event planning. These include zero-waste practices, paperless event solutions, reduced plastic usage, and ongoing efforts to save water and energy. The hotel also focuses on carbon footprint reduction through efficient resource management, while enhancing green spaces and courtyards to create a more balanced urban environment for guests and visitors.

“Our focus today goes beyond providing impressive venues,” said Ms. Achara Chuenbunchoo, General Manager. “We aim to support organisers with practical, sustainable solutions that align with global MICE trends—while still delivering warm Thai hospitality and attention to detail.”

By integrating sustainability into its MICE approach, The Berkeley Hotel Pratunam offers organisers the opportunity to host meaningful events that deliver impact while caring for the environment.
