BNH HOSPITAL 02-022-0700 BNHhospital.com info@bnh.co.th

A full range of treatment options for BPH (enlarged prostate) including iTind, Urolift, and Rezum Water Vapor Therapy are available at M Centre, BNH Hospital.

Urolift is a minimally invasive procedure that involves lifting or holding the enlarged prostate tissue to clear the urethra, without the need for cutting, heating, or removing any prostate tissue. This innovative approach provides relief from bothersome symptoms like frequent urination or weak urine flow.

- ✓ A safe and short procedure
- ✓ Preserve full sexual function
- ✓ Rapid symptom relief and recovery (same-day discharge)
- ✓ Reversible
